Work Experience

Describe any work experience. How long did you work there, what were your responsibilities, and what did you do with your earnings? Ortega Orthodontics – Checking in guests, answering phone calls, filing paperwork, and helping with small procedures. Burrito Gallery – Hostess/Food runner Chick-Fil-A – Serving guests by taking orders, bringing out food as well as bagging it and cleaning. With those earnings, I always put 75% in savings and used the rest for gas etc.

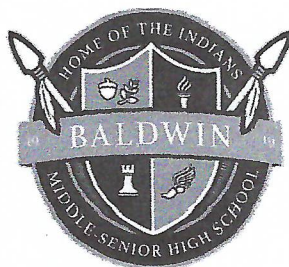

What has your work experience taught you? That you will not always enjoy serving and/or working with people but it is a daily task that you will need to do in order to learn responsibility.

NUCANF Scholarship Essay

If I were to run for President, my platform would be to cut taxes for small businesses. A majority of small businesses fail within their first few years due to low initial profit margins, therefore, cutting taxes would increase profit margins for small businesses. With cutting taxes for a business, the business can then continue to grow and hire more workers creating not only a better business but also increasing employment rates as well as helping the economy. The more workers a business is able to hire and the more a worker is able to make, the more money the government can tax even though they had initially cut taxes for the business. I stand strongly behind this concept, normally known as Reagan economics who made the concept popular. I believe that this concept gives businesses a chance to grow while the government is still able to gain the money they need.
